Name: mouse ES cell line PRX-B6N #1

Date Received: 2/16/06

Principle Investigator: Robin Wesselschmidt

Address: Primogenix  
1640 Marengo Street, Suite 702  
Los Angeles, CA 90033

Karyotype: 40,XY

Result:

Chromosomes from mouse ES cell line PRX-B6N #1 p.12 were analyzed using GTW banding method.

Of 20 cells examined, 19 had a normal male karyotype. One cell showed random loss of the Y chromosome, but was otherwise normal.

Impression: Normal male karyotype.
