Cell Line: PRX-Balb/cJ #9 p.12

Date Received: 12/14/05

Principle Investigator: Robin Wesselschmidt
Primogenix
1640 Marengo Street, Suite 720
Los Angeles, CA 90033

Karyotype: 41,XY, Ts(1)[2]/40,XY[18]

Result:

Chromosomes from PRX-Balb/cJ #9 p.12 were harvested and analyzed using GTW banding method.

Of 20 cells examined, 18 had a normal male karyotype. Two cells had a male karyotype with an extra chromosome 1.

Impression: Trisomy 1 cells observed.
